PROFESSIONAL PROFILE

Motivated Advanced Level Software Development student with a strong interest in backend engineering and web application development. I build practical projects to strengthen my programming skills and gain real-world development experience. I have hands-on experience with JavaScript, Node.js, Express.js, PostgreSQL, Sequelize ORM, RESTful APIs, and JWT authentication. I enjoy solving technical problems, learning new technologies, and turning ideas into functional software. I am seeking internship and learning opportunities where I can contribute to real-world projects while continuing to grow as a developer.
